ACADEMIC HONESTY FORM
University of California, Irvine
Protecting the Value of Independent Work By
Promoting Academic Honesty

The independent work you do as students and scholars should be valued as
your creation and credited to you.  Instances where the work of others is
portrayed as one's own (i.e., plagiarism) and other forms of academic
dishonesty undermine the value of independent work done by you, your peers
and others.

Therefore, plagiarism and other forms of academic dishonesty, including
cheating on quizzes and exams, are considered serious offenses and will not
be tolerated.  Instances of academic dishonesty will be addressed according
to University policy.  Reports on all cases of academic dishonesty will be
submitted to the relevant deans and will be added to the student's permanent
file.  Plagiarism can result in failure on an assignment, failure of the
course and/or imposition of campus wide sanctions including expulsion.  For
UCI's policies and definitions of academic dishonesty, read the section on
Academic Honesty in the Appendix of the UCI General Catalog
(http://www.editor.uci.edu/02-03/appx/appx.2.htm).  If you are unsure about
what constitutes plagiarism, see your TA.

_____

I understand that to protect the value of the independent work that I do in
this course, the work of all students in the course may be compared for
evidence of plagiarism to the work of other students, both in this course
and in others, and to other sources on the Internet and elsewhere.  This may
involve the storage of students' work in files on campus and/or on computer
systems outside of the university.  I promise to follow all University,
School, departmental and course policies on academic honesty.  I also agree
that my work in this course may be used for various teaching purposes,
including training instructors and providing examples for other students, with
my name removed to preserve my anonymity unless I notify the instructor of a
different preference.
